

**clear-vu**  
lighting

# HULK Lite

## Applications

- Ideal for tunnel lighting, parking garages, harsh-environment conditions, architectural and industrial operations including petroleum, mining, and power generation
- Comes with easy-to-install variable mounting bracket
- Functions in damp environments, impervious to steel dust and corrosion, operating temperature: -20° to 50°C

## Construction

- Innovative modular design and mounting bracket provides for simple installation and maintenance
- Automotive-grade polycarbonate lens assembly
- Heavy-duty injection molded components are low smoke, zero halogen (LSZH)
- Die-cast aluminum heat sink

## Electrical

- LED Driver operating voltage: 100-277 VAC, 480 VAC  
— Alternate high-voltage AC/DC input available
- Power Consumption 60 Watts – nominal

## Optics

- High-output bright white LED's (~4700K)
- Proprietary, precision Opticlear™ Engine maximizes light distribution to target area while minimizing glare
- LEDs have a rated life of 70% lumen maintenance at 50,000 hours

## Warranty/Listings

- 3 year limited warranty
- RoHS compliant
- IP67
- LM-79 tested – results available upon request
- UL – currently under review

## Photometric Data

- Total Rated Lamp Lumens: 4000
